LETTER OF REFERENCE

September 10, 2014

To Whom it may concern,

I am writing this letter as a recommendation for Steam Turbine Services Inc. (STS), in particular, Charlie Dupuis and Jeff LePage.

Since 2011 AES-3C Maritza East 1 EOOD has requested STS assistance many times. Initially with tasks related to proper tooling and spare parts for steam turbine maintenance, STS has helped develop outage schedules and assisted with the logistics of outage planning and execution. During our planned and forced outages STS has come to site to assist with coordination, evaluation of the steam turbine condition, supervision of maintenance activities, and proper documentation.

When necessary, STS has always provided the needed cooperation remotely or by sending an expert to site. While working on site, STS provides daily written communication with progress reporting and "look ahead" recommendation.

We highly appreciate STS skill, effort and expertise in the preparation and execution of maintenance activities on the steam turbines as well as in resolving technical issues arisen in the course of the work. We can strongly recommend Steam Turbine Services Inc. as a reliable and respectable partner.

Sincerely,

Leroy Reid:
